William D. Pate
Assistant County Attorney, Rockingham, NH

Dear Mr. William D. Pate,

I, Annie Khan, performed the preliminary color screening tests on the substance (reflected in the enclosed materials) as well as micro-crystal screening tests (Gold Chloride and TLTA) on the substance. The results of those tests were presumptively positive indicating the presence of cocaine. The substance was analyzed by GC/MS and confirmed to be cocaine. GC/MS testing was performed by Michael Lawler. A drug certificate was generated indicating that the substance was cocaine.

Enclosed is the information you requested in regards to Thomas Higgins. Included are copies of the following:

1. Curriculum Vitae for both Annie Khan and Michael Lawler.
2. Control Card with analytical results for sample # [REDACTED]
3. Analysis sheets with chemist's hand notations and test results.
4. GC/Mass Spectral control sheet, target tune and analytical data for sample # [REDACTED]
5. Quality control and calibration records for balance.

If you have any questions about these materials, please call me at the number below.

Sincerely,

Annie Khan (Dookhan)
